JECMB6 54(1-3) 1-401
(1992)

Volume 54, No. 1-3 Oct.-Dec. 1992 ISSN 0 304-4076

JOURNAL OF Econometrics

CONTENTS

Hahn Shik Lee, Maximum likelihood inference on cointegration and seasonal cointegration 1

T.W. Anderson and Naoto Kunitomo, Tests of over-identification and predeterminedness in simultaneous equation models 49

Jeongwen Chiang and Lung-Fei Lee, Discrete/continuous models of consumer demand with binding nonnegativity constraints 79

Badi H. Baltagi, Young-Jae Chang, and Qi Li, Monte Carlo results on several new and existing tests for the error component model 95

William Griffiths and George Judge, Testing and estimating location vectors when the error covariance matrix is unknown 121

Bruce E. Hansen, Heteroskedastic cointegration 139

Denis Kwiatkowski, Peter C.B. Phillips, Peter Schmidt, and Yongcheol Shin, Testing the null hypothesis of stationarity against the alternative of a unit root: How sure are we that economic time series have a unit root? 159

John G. Cragg, Quasi-Aitken estimation for heteroskedasticity of unknown form 179
